TABLE OF CONTENTS

Acknowledgements	iv
Alphabetical Index of Entries	v
Subject Index of Entries	vii
How to Use This Guide	xiii
Appendixes	
A. Federal Sources of Information	98
B. County Extension Agents	99
C. Montana Power Consumer Services Managers	101
D. Rural Electric Cooperatives	102
E. Special Project Contacts	104
F. Human Resource Development Councils	105
G. Listing of Entries by Subordinate Agency	106
H. Listing of Energy Information Centers	107

ACKNOWLEDGEMENTS

The first Montana Energy Resource Guide (1982) was prepared by Louise Moore. Without that excellent model, the task of preparing this 1984 Resource Guide would have been far more difficult.

Special thanks go to Sylvia Sperry and Emelia Satre for word processing; William Phippen, editing; Barbara Lien and Don Howard, layout and cover design; and Tom Livers, review.

Thanks also to the many governmental agencies, organizations, and private groups that provided information for this publication.

ALPHABETICAL INDEX

Alternative Energy Resources Organization (AERO)	1
Basin Electric Power Cooperative	2
Billings Community Energy Program (BiCEP)	3
Bonneville Power Administration (BPA)	4
Conoco, Inc.	6
Energy and Man's Environment (EME)	7
Exxon Company, U.S.A.	8
Great Falls Gas Company	10
Montana Associated Utilities, Inc.	12
Montana Bureau of Mines and Geology	13
Montana Chamber of Commerce	14
Montana Coal Board	15
Montana Coal Council	16
Montana College of Mineral Science and Technology, Alternative and Renewable Energy Program	17
Montana Consumer Counsel	18
Montana Cooperative Extension Service	19
Montana-Dakota Utilities Company (MDU)	24
Montana Department of Administration, Building Codes Division	25
Montana Department of Fish, Wildlife, and Parks (DFWP)	26
Montana Department of Health and Environmental Sciences, (DHES), Occupational Health Bureau	27
Montana Department of Health and Environmental Sciences, (DHES), Solid Waste Management Bureau	28
Montana Department of Health and Environmental Sciences, (DHES), Water Quality Bureau	29
Montana Department of Highways	30
Montana Department of Natural Resources and Conservation (DNRC), Energy Division	31
Montana Department of Natural Resources and Conservation (DNRC), Water Resources Division	37
Montana Department of Revenue, Research and Information Division	38
Montana Department of Social and Rehabilitation Services (SRS), Economic Assistance Division	39
Montana Department of State Lands	40
Montana Energy Research and Development Institute (MERDI)	41
Montana Environmental Information Center (EIC)	43
Montana Federation of Women's Clubs	44

U.S. Department of Energy, Technical Information Center	87

HOW TO USE THIS GUIDE

This resource guide has been prepared to help teachers, librarians, and citizens locate energy information. It describes those agencies involved in energy education and lists the speakers, films, displays, and publications they provide. These lists were compiled from information submitted by the agencies. It is not an attempt to list all organizations in the state that deal with energy, nor does it intend to promote one source of information over another.

Agencies are listed in the guide both alphabetically and according to subject. To locate information on a particular topic, use the Subject Index. Several appendixes have been added to provide further information. These include: Federal Sources of Information, County Extension Agents, Montana Power Consumer Services Managers, Rural Electric Cooperatives, Special Project Contacts, Human Resource Development Councils, a Listing of Entries by Subordinate Agency, and a listing of Energy Information Centers.

ALTERNATIVE ENERGY RESOURCES ORGANIZATION (AERO)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Alternative Energy Resources Organization (AERO) is a nonprofit citizens' organization whose goal is to promote energy efficiency and reliance upon renewable sources of energy. It is controlled by a citizen board of directors with state-wide representation.</p> <p>Associate organization, the New Western Energy Show, is semi-autonomous and described in more detail under a separate heading.</p> <p>Contact:</p> <p>Alan Okagaki 324 Fuller, C-4 Helena, MT 59601 443-7272</p>	<p>Conducts conferences, seminars, hands-on workshops, and public informational meetings on wind and solar energy, hydro-power, fuel alcohol, wood-burning safety and rammed earth construction.</p> <p>Sponsors the New Western Energy Show in Helena, which tours Montana schools with energy activities for children.</p>	<p><i>Get Your Hands on Energy.</i> \$5.35 (postpaid).</p> <p><i>The Energy Show.</i> \$3.70</p> <p><i>AERO Sun-Times.</i> Monthly magazine for members. 60 other titles also available from AERO.</p> <p>To obtain publications:</p> <p>Mail order sales are made from the AERO office at 324 Fuller, C-4, Helena, MT 59601.</p>	<p>Speakers:</p> <p>Available.</p> <p>Displays:</p> <p>Available.</p> <p>To obtain speakers or materials:</p> <p>Contact agency.</p>

BASIN ELECTRIC POWER COOPERATIVE

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>Basin Electric Power Cooperative is a bulk wholesale electric power supplier for a federation of over 100 rural electric power supply and distribution cooperatives in eight states of the Missouri River Basin.</p> <p>Contact:</p> <p>Nancy E. Wolf 1717 E. Interstate Ave. Bismarck, ND 58501 (701) 223-0441</p>	<p>Provides staff for large energy-related conferences and seminars.</p> <p>Member REC's (rural electric cooperatives) provide staff assistance for various energy-related programs.</p>	<p><i>Dwelling With Conservation.</i> A guide to home energy management.</p> <p><i>How to Save Money with an Energy Efficient Home.</i> General information about retrofit for the do-it-yourselfer.</p> <p><i>Energy From the Sun.</i> Operation and performance of solar water heating systems.</p> <p><i>Cooperative Conservation.</i> Pamphlet. Describes Basin Electric's involvement in energy conservation and resource sharing projects.</p> <p><i>Energy From the Sun.</i> Pamphlet. Describes headquarter building's solar heating system.</p> <p>To obtain publications:</p> <p>Publications available at \$1.00 per copy. Pamphlets available upon request. Contact agency.</p>	<p>Slides:</p> <p><i>The Insulation Story.</i></p> <p><i>Residential Energy Audit.</i></p> <p>Video-tapes:</p> <p><i>Cooperative Conservation.</i> Outlines Basin Electric's involvement in various conservation and resource-sharing projects.</p> <p><i>Home Energy Conservation "Wood Heat"</i></p> <p><i>How to Keep the Heat in Your House</i></p> <p><i>Opening Your Home to Solar Energy</i></p> <p><i>Energy vs. Demand</i></p> <p>Film:</p> <p><i>Saving Energy At Home.</i> Identifies major sources of home energy use.</p> <p>Displays:</p> <p>Energy Conservation Display.</p> <p>Energy/Demand Simulator Display.</p> <p>To obtain materials:</p> <p>Contact agency.</p>

BILLINGS COMMUNITY ENERGY PROGRAM (BiCEP)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>BiCEP is a volunteer citizens' organization serving the city of Billings and Yellowstone County. It is dedicated to the encouragement of energy conservation and the use of renewable energy sources.</p> <p>Contact:</p> <p>Wilson Clark, Sec./Treas. Box 476 Billings, MT 59103 245-6144</p>	<p>Organizes and promotes workshops, seminars, and conferences on energy conservation and renewable energy resources.</p> <p>Supports, through matching funds, energy education and energy conservation projects and activities by other citizens' organizations. Proposals are welcome, but can be considered only from the Billings/Yellowstone County area.</p>		<p>Speakers:</p> <p>Available on an irregular basis. Speakers Bureau will be organized in the near future to distribute the results of the Yellowstone County Energy Study and the Energy Futures Conference, held in late 1981.</p> <p>To obtain speakers:</p> <p>Contact the BiCEP secretary/treasurer.</p>

BONNEVILLE POWER ADMINISTRATION (BPA)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Bonneville Power Administration, an agency of the U.S. Department of Energy, is the power marketing agency for federally produced electrical energy in the Pacific Northwest.</p> <p>Contact:</p> <p>George E. Eskridge Montana District Manager 800 Kensington Missoula, MT 59801 329-3860</p>	<p>Provides general information on energy production, energy conservation, and renewable energy sources.</p>	<p><i>About BPA.</i></p> <p><i>Living in a Glass House.</i> 5-book series.</p> <p><i>Columbia River Power.</i></p> <p><i>Do-It-Yourself Home Weatherization Guide.</i></p> <p><i>Small Wind Energy Conversion Systems.</i></p> <p><i>Wind Power.</i> Describes small wind project.</p> <p><i>Pump Testing.</i></p> <p><i>Weatherization.</i></p> <p><i>Living Laboratory.</i> On BPA conservation experiments at Midway, Wash.</p> <p><i>Electrical & Biological Effects of Transmission Lines: a Review.</i></p> <p><i>Living and Working Around High Voltage Powerlines.</i></p> <p><i>Solar Home Show (Homes Designed for the Solar Builder's Program).</i></p> <p><i>Mickey Mouse and Goofy Explore Energy.</i></p> <p><i>Mickey Mouse and Goofy Explore Energy Conservation.</i></p> <p><i>Firm, Secondary, and Surplus Hydropower.</i></p> <p>To obtain publications:</p> <p>Publications distributed free of charge to persons in BPA service area (western Montana).</p>	<p>Films:</p> <p><i>Great River.</i> 29 min. Covers the multipurpose development of the Columbia River Basin with emphasis on power, flood control, irrigation, reclamation, and environment. Includes scenes of Hungry Horse and Libby Dams, and the Anaconda Co.'s aluminum plant at Columbia Falls, Mont.</p> <p><i>Inertie.</i> 29 min. Tells the story of the Pacific Northwest-Pacific Southwest Inertie, which consists of several extra-high voltage lines, each about 800 miles long. It is the largest single transmission program ever undertaken in the U.S.</p> <p><i>The World Behind Your Light Switch.</i> 28 min. Describes BPA crews that work round the clock in every kind of weather—on the ground, in the air, and beneath the sea.</p> <p><i>Power for a Nation.</i> 28 min. Traces early development of electric power in the U.S. and describes the role of the federal government in producing a portion of that power. Features many Northwest scenes, including Hungry Horse and Libby Dams.</p>

BONNEVILLE POWER ADMINISTRATION (BPA) (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
			<p><i>The Hottest Show on Earth.</i> 28 min. Outlines the current energy situation. Explains how insulation can ease the pressure on our dwindling fuel resources.</p> <p><i>Saving Tomorrow's Resources.</i> 22 min. Discusses the future of 1200 KV transmission lines in supplying electricity to the Northwest. Shows how escalating energy demands require new solutions to the problem of getting power to the consumer.</p> <p>Exhibits: Available. Contact agency for description.</p> <p>Speakers: Available.</p> <p>To obtain materials: Contact agency.</p> <p>Requirements for obtaining materials: Films available upon request. Schedule in advance during school year.</p>

CONOCO, INC.

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>Conoco, Inc. is a company that processes and markets energy resources and explores for new fuel sources.</p> <p>Contact:</p> <p>Joan Watts Marketing/WCO P.O. Box 2548 Billings, MT 59103 252-3841</p>	<p>Provides information on a variety of energy resources.</p>		<p>Speakers:</p> <p>14 speakers available in Montana for high school, vo-tech, and college classes, and the general public.</p> <p>To obtain speakers:</p> <p>Contact agency.</p>

ENERGY AND MAN'S ENVIRONMENT (EME)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>Energy and Man's Environment is a nonprofit organization that seeks to increase public knowledge about energy. EME develops instructional materials for use in public schools, and provides in-service training on energy issues for educators and the general public.</p> <p>Contact:</p> <p>Gary D. Swant State Coordinator 113 North Frontage Rd. Deer Lodge, MT 59722 846-2451</p>	<p>Assists in teaching about energy by providing educators or the general public with</p> <ul style="list-style-type: none"> • speakers, • tours, and • hands-on activities. <p>Conducts a summer workshop on the Montana coal development issue.</p>	<p><i>Adventures of Mini-Volts and Wastey Watts.</i></p> <p><i>Conservation of Energy Activity Guide.</i></p> <p><i>Energy E.Q. Test.</i></p> <p><i>Energy Glossary.</i></p> <p><i>Energy Conservation Corps.</i></p> <p>Energy Lesson Plan Notebooks K-6.</p> <p>Grades 7-12 Subject Matter Lesson Plan Packets.</p> <p>Duster & Gusher Simulation Game</p> <p>Natural Gas Story Kit</p> <p>To obtain publications:</p> <p>Materials available for purchase from agency. They are free of charge as part of school workshops.</p>	<p>Posters:</p> <p>Energy Eye Chart Poster.</p> <p>Energy Calendar.</p> <p>Coal Poster.</p> <p>Oil Poster.</p> <p>Natural Gas Poster.</p> <p>Nuclear Poster.</p> <p>Water Poster.</p> <p>Speakers:</p> <p>Available for curriculum workshops.</p> <p>To obtain materials or speakers:</p> <p>Contact agency.</p>

EXXON COMPANY, U.S.A.

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>Exxon is a corporation that processes and markets energy resources and explores for new fuel sources.</p> <p>Contact:</p> <p>Charles W. Paris P.O. Box 1163 Billings, MT 59103 657-5204</p>	<p>Provides information on a variety of energy resources.</p>	<p><i>Exxon's Energy Outlook, 1978-1990.</i></p> <p><i>Exxon Company, U.S.A.'s Energy Outlook 1977-1990.</i> 1977.</p> <p><i>Developing the Many Sources of Energy.</i> 1977.</p> <p><i>Tomorrow's Energy... Today's Challenge.</i> Remarks by L.G. Rawl, Executive Vice President, Exxon Co.</p> <p><i>World Energy Outlook.</i> 1977.</p> <p><i>Middle East Oil.</i> 1976.</p> <p><i>The Offshore Search for Oil and Gas.</i> 1975.</p> <p><i>Technology in the Search for Energy.</i> 1976.</p> <p><i>Does Oil Affect the Marine Environment?</i></p> <p><i>Exxon and the Environment.</i> 1975.</p> <p><i>Environmental Conservation.</i> Progress report. 1977-78.</p> <p><i>The Case for Diversification.</i> Submission of Exxon Co., U.S.A., before the Senate Judiciary Subcommittee on Antitrust and Monopoly.</p> <p><i>Energy and Economic Progress.</i> Remarks by Randall Meyer, President, Exxon Co.</p> <p><i>The Charges and the Facts.</i> 1976.</p> <p><i>OPEC: Questions and Answers.</i> 1976.</p>	<p>Films:</p> <p><i>A Funny Thing Happened on the Way to the Gas Station.</i> Story of a 13-year-old boy's journey following the production of gasoline from a well in Texas to a service station in New Jersey.</p> <p><i>World Beneath the Sea.</i> Man's search for oil and gas off the coasts of the U.S. Describes how offshore drilling has developed. Shows various types of platforms used today.</p> <p><i>Three E's.</i> Describes the complex relationship between energy, economics, and environment.</p> <p><i>Faces of Energy.</i> Documentary. Tells the story of the petroleum industry through individual portraits of workers.</p> <p><i>Nuclear Energy: Power for Today and Tomorrow.</i> Describes Exxon's part in the search for mining, milling, and fabrication of nuclear fuel for power generation.</p>

EXXON COMPANY, U.S.A. (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p><i>Are the Major Oil Firms Propping up OPEC?</i></p> <p><i>Mickey Mouse and Goofy Explore Energy.</i> Comic book.</p> <p><i>Mickey Mouse and Goofy Explore Energy Conservation.</i> Comic book.</p> <p>To obtain publications: Contact agency. Comic books should be ordered 30 days in advance.</p>	<p>Speakers: J.H. Burch R.E. Hanson</p> <p>Speakers available on all forms of energy, including oil, gas, nuclear, solar, wind, geothermal, coal, and tidal. Exploration, production, transportation, refining, and marketing aspects are covered along with economic and governmental concerns. Talks are tailored to the group.</p> <p>To obtain films or speakers: Contact agency.</p>

GREAT FALLS GAS COMPANY

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Great Falls Gas Company is a utility company distributing natural gas to the Great Falls area.</p> <p>Contact:</p> <p>Sheila Rice #1 River Park Tower Box 2229 Great Falls, MT 59403 761-7100</p>	<p>Provides energy audits to customers to help reduce fuel consumption.</p> <p>Provides workshops and technical assistance to builders, lenders, and appliance dealers.</p> <p>Provides presentations to Great Falls schools and consumer groups.</p>	<p><i>Natural Gas Safety.</i></p> <p><i>Gas: The Future Belongs to the Efficient.</i> Advice on appliance selection.</p> <p>To obtain publications:</p> <p>Publications free in reasonable quantities.</p> <p>Other publications for teachers and schools in Great Falls available from:</p> <p>AGA Educational Services 1515 Wilson Blvd. Arlington, VA 22209</p> <p>Write for free catalogue.</p>	<p>Filmstrip:</p> <p><i>Natural Gas: The Science Behind the Burner.</i></p> <p>Films:</p> <p><i>Natural Gas in the 80's.</i> Several ethnic cooking films.</p> <p>Junior High—High School Presentations:</p> <p><i>Natural Gas Production—an overview.</i></p> <p><i>Energy Conservation—an overview.</i></p> <p><i>Window Treatments for Energy Conservation.</i></p> <p><i>Selection and Use of Appliances with an Eye to Energy Conservation.</i></p> <p><i>Alternative Sources of Methane/ The Future of Natural Gas.</i></p> <p><i>Gas Barbecuing—Outdoor Grilling at Its Finest.</i></p> <p><i>Gas Cooking Demonstrations.</i> Varies according to school level.</p> <p><i>The Gas Cooking Advantage.</i> Designed for schools without gas ranges.</p>

GREAT FALLS GAS COMPANY (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
			<p><i>Principles of Gas Combustion.</i> For students with an understanding of chemistry equations.</p> <p><i>Architectural Considerations for Heating and Air Conditioning.</i></p> <p><i>Cooking for Profit.</i> On commercial food service.</p> <p>Elementary School Presentations:</p> <p><i>Natural Gas Serves Our Community—Gas Supply from Well to Burner.</i></p> <p><i>Energy Conservation—What You Can Do.</i></p> <p><i>Fossil Fuels—History, Uses, Future.</i></p> <p>Variations of junior high and high school topics also available at elementary levels.</p> <p>To obtain films or speakers: Contact agency. Prescheduling required for film and filmstrip.</p>

MONTANA ASSOCIATED UTILITIES, INC.

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>Montana Associated Utilities, Inc. is an association of rural electric cooperatives. It provides job and safety training as well as educational, advertising, and joint purchasing services to its members. It also lobbies for the group's interests.</p> <p>Contact:</p> <p>Jay T. Downen P.O. Box 1306 Great Falls, MT 59403 761-8333</p>	<p>Provides energy conservation information and weatherization assistance.</p> <p>Performs energy audits.</p> <p>These services vary by local group. See Appendix D for listing of cooperatives.</p>	<p><i>Rural Montana.</i> Monthly magazine for member cooperatives.</p> <p>Other publications available.</p> <p>To obtain publications:</p> <p>Contact agency.</p>	<p>Audiovisual Materials:</p> <p>Available.</p> <p>To obtain materials:</p> <p>Contact agency.</p>

MONTANA BUREAU OF MINES AND GEOLOGY

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Montana Bureau of Mines and Geology is a department of the Montana College of Mineral Science and Technology. It promotes the use of mineral resources through the investigation of their geology, methods of production, and economics. It also disseminates information through publications and replies to individual inquiries.</p> <p>Contact:</p> <p>Edward C. MONTANA DEPARTMENT OF NATURAL RESOURCES AND CONSERVATION (DNRC) – Water Resources Division

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Water Resources Division administers Montana's water resource programs. It also administers Montana water rights laws, prepares the state water plan, and constructs, operates, and maintains state-owned water resource projects.</p> <p>Contacts:</p> <p>Caralee Cheney Water Development Bureau 32 S. Ewing Helena, MT 59620 444-6687</p> <p>Larry Holman Water Rights Bureau 32 S. Ewing Helena, MT 59620 444-6610</p> <p>Rick Bondy Engineers Bureau 32 S. Ewing Helena, MT 59620 449-2864</p>	<p>Provides loan and grant funding for small scale hydro development to private and public entities through the Water Development and Renewable Resource Development Programs.</p> <p>Issues water rights permits for hydro projects that generate electricity.</p> <p>Studies the possibility of adding hydroelectric facilities to state-owned dams.</p>	<p>Brochures.</p> <p>To obtain publications: Contact agency.</p>	<p>Speakers: Available.</p> <p>To obtain speakers: Contact agency.</p>

MONTANA DEPARTMENT OF REVENUE
Research and Information Division

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Research and Information Division prepares revenue estimates for the State of Montana and gives information on tax laws to the general public. It also provides data processing for the Department of Revenue.</p> <p>Contact:</p> <p>Roger L. Linnell Capitol Station Helena, MT 59620 444-3149</p>	<p>Provides information on state tax incentives for energy conservation and the use of renewable energy resources. These include income tax credits for energy conservation and use of renewable energy, gasohol license tax reduction, and property tax reduction for gasohol facilities.</p>	<p>Tax forms, instructions. Information for tax preparers.</p> <p>To obtain publications: Contact agency.</p>	

MONTANA DEPARTMENT OF SOCIAL AND REHABILITATION SERVICES (SRS) – Economic Assistance Division

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Economic Assistance Division of Social and Rehabilitation Services is the agency which administers the state's Energy Assistance Program and the Weatherization Assistance Program.</p> <p>Contact:</p> <p>Charlie Poole Weatherization Assistance 444-6799</p> <p>Jim Nolan Weatherization and Fuel Assistance 444-6799</p> <p>Local Contacts:</p> <p>Weatherization programs are administered in local areas by Human Resource Development councils. See Appendix F for listing.</p> <p>Fuel assistance programs are administered by some county welfare agencies and the ten Human Resource Development councils.</p>	<p>Administers the Energy Assistance Program which subsidizes fuel bills of individuals and families that cannot meet the high cost of home energy.</p> <p>Through the Weatherization Assistance Program, provides a variety of energy conservation measures to those eligible. Such measures include energy auditing, insulating homes and water heaters, furnace modifications, caulking, weatherstripping, and window and roof repair. 12,300 homes have been weatherized since 1978.</p>	<p>Books and pamphlets available on energy conservation and renewable energy.</p> <p>To obtain publications:</p> <p>Publications available to low income groups and individuals or those organizations engaged in low income assistance.</p>	<p>Films:</p> <p>Available.</p> <p>Speakers:</p> <p>Available.</p> <p>To obtain films and speakers:</p> <p>Speakers and films available to low income groups, individuals, or those engaged in low income assistance. Written requests filled on the basis of availability.</p>

MONTANA DEPARTMENT OF STATE LANDS

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Department of State Lands is the state agency which develops state lands to increase their value; leases state lands for grazing, timber, cabin sites, agricultural, and mineral uses; and administers laws pertaining to mined-land reclamation.</p> <p>Contact:</p> <p>Dennis Hemmer Capitol Station Helena, MT 59620 444-2074</p>	<p>Requires mining operations to prepare mining and reclamation plans before issuing permits and enforces reclamation obligations.</p> <p>Administers ongoing programs for reclamation of abandoned mined lands.</p>	<p>Environmental impact statements.</p> <p>To obtain publications:</p> <p>Contact agency.</p>	<p>Speakers:</p> <p>Available on limited basis.</p> <p>Topic: Department's programs.</p> <p>To obtain speakers:</p> <p>Contact agency.</p>

THE MONTANA ENERGY RESEARCH AND DEVELOPMENT INSTITUTE (MERDI)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>MERDI is a nonprofit organization dedicated to research and development of energy-related projects, products, and processes. MERDI's activities cover state, regional, and national projects. Some activities are carried out by MERDI's subsidiary, MSE (Mountain States Energy), Inc.</p> <p>Contact:</p> <p>Dr. Jerry Plunkett President P.O. Box 3809 Butte, MT 59702 782-0463</p>	<p>Researches MHD (magnetohydrodynamics), a process of converting coal to electricity.</p> <p>Tests and operates a major national MHD facility.</p> <p>Manages wind-monitoring programs to determine the wind potential of several sites in Montana.</p> <p>Performs site engineering and project management for wind machine installations.</p> <p>Directs energy facility-siting programs associated with Resource '89 and related facilities and programs.</p> <p>Conducts studies to find energy efficient uses for Plasma Arc Rotating Furnaces in ceramics, abrasives, and metals industries.</p> <p>Performs small-scale hydropower feasibility and design studies.</p>	<p>Available.</p> <p>To obtain publications:</p> <p>Contact agency.</p>	<p>Speakers:</p> <p>Jerry Plunkett Karen Barclay Topic: MERDI programs.</p> <p>To obtain speakers:</p> <p>Contact agency.</p>

THE MONTANA ENERGY RESEARCH AND DEVELOPMENT INSTITUTE (MERDI) (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
	<p>Performs research into the best use of Montana coal resources.</p> <p>Conducts environmental and laboratory testing to support energy projects.</p> <p>Studies the feasibility of producing ethanol and other alcohol fuels from biomass sources, including wood and grains.</p>		

MONTANA ENVIRONMENTAL INFORMATION CENTER (EIC)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Montana Environmental Information Center is a private organization of 1300 members dedicated to environmental advocacy.</p> <p>Contact:</p> <p>Don Reed P.O. Box 1184 Helena, MT 59624 443-2520</p>	<p>Provides information on the environmental aspects of energy development.</p> <p>Lobbies for environmentally sound energy policy.</p> <p>Monitors, as part of the Northwest Conservation Act Coalition, implementation of the Northwest Power Act.</p> <p>Promotes economic development in energy conservation and renewable resources.</p>	<p><i>Down to Earth.</i> Bimonthly newsletter.</p> <p><i>Capitol Monitor.</i> Biweekly during legislative session.</p> <p>To obtain publications:</p> <p>Publications available at newsstands and from agency.</p>	

MONTANA FEDERATION OF WOMEN'S CLUBS

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Federation of Women's Clubs is an international service organization.</p> <p>Contact:</p> <p>Mrs. Electa Davis Box 545 Wolf Point, MT 59201 653-1282</p>	<p>Informs public about energy conservation through speakers and publications.</p>	<p><i>Energy Checklists—Idea Guide.</i></p> <p><i>Energy Savings Hints Sheet.</i></p> <p>To obtain publications:</p> <p>Contact agency.</p>	<p>Audiovisual Programs:</p> <p><i>Home Energy Check.</i> Program aimed at stopping energy waste and saving fuel dollars in the home.</p> <p><i>Every Drop Makes a Difference.</i> Gasoline conservation program.</p> <p>To obtain speakers:</p> <p>Contact agency.</p>

MONTANA GASOHOL COMMISSION

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Montana Gasohol Commission is an organization open to all interested in fuel alcohol production.</p> <p>Contacts:</p> <p>John Radenberg Wolf Point, MT 59201 653-1403 (home) 653-2012 (work)</p> <p>Tom Jaques P.O. MONTANA LEAGUE OF WOMEN VOTERS

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The League of Women Voters is a nonpartisan organization that provides information on various issues of concern to the community. The league also takes action on issues it has studied.</p> <p>Contact:</p> <p>Ellen Knight 5800 Rattlesnake Missoula, MT 59802 549-5952</p>	<p>Takes action on energy issues that relate to our national and state energy positions. Emphasis is on energy conservation.</p> <p>Introduces children to energy conservation and renewable energy sources through its energy puppet show.</p>	<p>Resource File. On nuclear energy. Also various publications and issue updates on a variety of energy issues.</p> <p>Montana Voter. Newsletter for members.</p> <p>To obtain publications:</p> <p>Contact agency.</p>	<p>Puppet Show:</p> <p>Take That, You Monster. Puppet show also available in a larger version for large group presentation.</p> <p>Kits:</p> <p>Puppet Show Teacher Kits available for loan in Teacher Resource Centers in urban areas and from the Superintendent's Office for rural areas.</p> <p>To obtain materials or speakers:</p> <p>Teacher kits, large puppets, and videotapes of the puppet show can be purchased from the League. For larger version of live puppet show, groups must pay transportation and expenses of puppeteers. Contact League for more information.</p>

MONTANA POWER COMPANY (MPC)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS
<p>The Montana Power Company is a diversified energy company with a historic role in providing natural gas and electricity to the nation's second largest utility service area—107,600 square miles, or 73 percent of the land area in Montana. In addition, the company is recognized as a major U.S. coal producer and holds a strong position in nonutility oil and natural gas development.</p> <p>Contacts:</p> <p>Ms. E. Wing Spooner, Director Consumer Educational Services 40 E. Broadway Butte, MT 59701 723-5421, ext. 2253</p> <p>Billings area:</p> <p>Ms. Debbie Singer, Coordinator Consumer Educational Services 113 N. Broadway Billings, MT 59101 252-0591, ext. 2229</p>	<p>Offers free energy education materials and films.</p> <p>Presents a variety of energy-related talks, programs, and workshops.</p> <p>Conducts tours of dams, generating plants, and system operating control center.</p> <p>Offers residential energy audits to space-heating customers and no-interest loans for energy conservation measures. (Available by contacting local division or district offices.)</p>	<p>1983-84 Teacher's Resource Guide. Listing with complete description of all available materials. Also, ordering and scheduling information.</p> <p>ABC's of Today's Economy. Grades 9-Adult. Workings of today's economy.</p> <p>Acidic Precipitation. Grades 7-Adult. Describes government and industry efforts to answer questions about acid rain.</p> <p>Agriculture, Energy and Society. Grades 10-12. Explores energy as it relates to food production.</p> <p>Alternative Energy Sources and Technologies: Answers to Your Questions. Grades 7-Adult. Discusses solar, wind, biomass, ocean power, hydrogen, geothermal and more.</p> <p>Bringing Energy to the People: Washington D.C. and Ghana. Grades 6-7. Compares how energy use affects the way people live in different cultures.</p> <p>Captain Power. Grade 3. Explains energy uses, costs, sources and conservation.</p> <p>Case of the Hidden Hazards. Grades 4-5. Electrical safety.</p> <p>Century of Light. Grades K-12. How inventors and inventions changed our lives.</p> <p>Coal and the Energy Crunch. Grades 7-Adult. Booklet covers several aspects of coal mining.</p> <p>Coal: Answers to Your Questions. Grades 7-Adult. Discusses major issues concerning coal.</p> <p>Color It Conserved. Grades 1-5. Coloring booklet.</p> <p>Community Workers and the Energy They Use. Grade 2. Unit deals with energy and effects on our lives.</p> <p>Conservation for Children. Grades 1-6. An activity guide about conservation of our natural resources.</p> <p>Discovering Coal. Grades K-3. Kit covers coal mining, kinds of coal, coal uses.</p> <p>Easy Energy Readers. Grades 6-11. Articles about energy to provide students with reading experience.</p>

MONTANA PUBLIC LIBRARY FILM SERVICE

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>The Montana Public Library Film Service is a film loan program which serves public libraries throughout the state.</p> <p>Contact:</p> <p>Reference Librarian Butte/Silver Bow Public Library 106 W. Broadway Butte, MT 59701 723-8262</p>	<p>Loans energy films.</p>	<p>Films:</p> <p>Films are 16mm with sound and color.</p> <p>Elementary Films:</p> <p><i>Energy.</i> Oxford Films, 1974. 10 min. Illustrates the degree to which our modern lifestyle is dependent on energy from natural resources. Describes plans for expanded development of nuclear, geothermal, and solar energy.</p> <p><i>Energy: A First Film.</i> BFA Educational Media, 1970. 8 min. Discusses different forms of energy and how one form can be converted into another, pointing out that most of the energy we use comes from the sun.</p> <p><i>Energy and Living Things.</i> Centron Films, 1971. 10½ min. Examines the nature of matter and energy and demonstrates how and why both are essential to all life forms. Questions man's use of remaining fossil fuel energy reserves.</p> <p><i>Energy Monsters: How to Starve Them.</i> BFA Educational Media, 1978. 12½ min. Shows two youngsters deciding to save energy in their home and searching the house for ways to make it energy efficient.</p> <p><i>Learning About Solar Energy.</i> ACI Films, 1975. 12 min. Children find ways to heat water for an outdoor shower and cook a hot dog in a miniature solar furnace.</p> <p><i>Toast.</i> Bullfrog Films, 1974. 12 min. Shows energy consumption in the preparation and marketing of food. Illustrates that our daily toast, an end product of an intensive energy process, is hardly a bargain at present energy costs.</p> <p><i>More.</i> Macmillan Films, Inc., 1973. 3 min. Animated. Portrays our national syndrome of conspicuous consumption. "More," demands man, until the inevitable climax.</p>

		<p>Junior High to Adult Films:</p> <p><i>E.F. Schumacher—As If People Mattered.</i> Bullfrog Films, Inc., 1978. 16 min. A record of a Schumacher speech in Montana. Recommends that we devise an economy in which people consume goods from their locale.</p> <p><i>Energy: A Matter of Choices.</i> Encyclopedia Britannica, 1973. 22 min. Surveys the attitudes and technological forces on which our patterns of energy consumption are based, and studies causes of and responses to the energy crisis.</p> <p><i>Energy: A National Issue.</i> Aims Instructional Media Services, 1977. 27 min. The Flintstones explain the causes of a dwindling energy supply and some of the problems of dwindling supply. Charlton Heston narrates.</p> <p><i>Energy for the Future.</i> Encyclopedia Britannica, 1974. 17 min. Examines energy alternatives for the future, including processed coal, oil, geothermal heat, nuclear fission and fusion, wind, and solar heat.</p> <p><i>Energy from the Day Star.</i> Essentia Films, 1978. 22 min. A rediscovery of our connection with nature. Argues that solar energy is a necessity for the future.</p> <p><i>Energy: Less is More.</i> Churchill Films, 1974. 18 min. An investigation of the need to slow energy consumption and ways this can be done.</p> <p><i>Energy: New Sources.</i> Churchill Films, 1974. 20 min. Describes the potential and limits of new technologies, including solar, fusion, and geothermal. Argues for developing a variety of options.</p> <p><i>Energy: The Dilemma.</i> Churchill Films, 1974. 20 min. Examines energy growth patterns: past, present, and future. Explores problems of supply and demand, depletion of fossil fuels, our dependency on them, and resultant economic and social problems.</p> <p><i>Energy: The Nuclear Alternative.</i> Churchill Films 1974. 20 min. Explores fission power, how it works, and the controversies over safety and radioactive wastes.</p>

MONTANA PUBLIC LIBRARY FILM SERVICE (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p><i>Energy: The Problems and the Future.</i> National Geographic Society, 1978. 23 min. Discusses solar, geyser, tidal, and wind power as solutions to the exhaustion of nonrenewable fuels.</p> <p><i>The Energy Game.</i> Federal Energy Administration, 1973. 16 min. Promotes home insulation campaigns, and recommends the use of the <i>Home Energy Savers Handbook</i>. Suitable for energy conservation workshops and civic meetings.</p> <p><i>Energy, the Great Escape.</i> Federal Energy Administration and the South Dakota Energy Office, 1974. 20 min. Explains types of fossil fuel heating systems and maintenance procedures for them. Also deals with the weatherization of residences.</p> <p><i>Featherfoot.</i> U.S. Post Office, 1977. 30 min. Explains driving techniques that save fuel. Designed for use by post office employees but suitable for many groups.</p> <p><i>Fields of Fuel: The Ethanol Debate.</i> Iowa State University. 28 minutes. Explains the potential of converting crops to fuel. It examines the production and utilization of ethanol on both small and large scales, emphasizing the issues that will determine ethanol's future as a motor fuel.</p> <p><i>The Food Cycle and Food Chains.</i> Coronet Films, 1963. 10½ min. Describes food chains and the unending pattern of life, growth, and decay known as the food cycle.</p> <p><i>Harness the Wind.</i> National Film Board of Canada. 12 minutes. Concise animated overview of the history of wind power. Shows gradual refinement of wind machines from seventh century Persia to the contemporary Darrieus rotor. Projects wind's potential in our future energy mix.</p> <p><i>Have We Stayed Too Long at the Fair.</i> Screenscope, Inc., 1978. 25 min. Portrays U.S. dependence on energy by using the hard winter of 1976-1977 as an example of what can happen when gas, oil, and electricity cannot be moved when and where needed.</p>

MONTANA PUBLIC LIBRARY FILM SERVICE (Continued)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p><i>Home Heating with Wood.</i> New York State College of Agriculture. 23 minutes. Explains the basics of heating your home with wood, including selection of a stove, installation and safety precautions, and what woods to use.</p> <p><i>Hottest Show on Earth:</i> National Film Board of Canada, 1978. 28 minutes. Uses songs, animation, live action, special effects, and humorous vignettes to explore the topic of energy conservation, the value of home insulation, and home heating efficiency.</p> <p><i>Introduction to Electricity.</i> Coronet Films, 1971. 11 min. Presents fundamental concepts of electrical energy, electrical resistance, and factors affecting variations in each. Clarifies terms such as electrons, voltage, and parallel and series wiring.</p> <p><i>Montana Coal.</i> Tractor and Equipment Company of Billings. 15 min. Shows strip mining and reclamation in eastern Montana, with emphasis on jobs for Montanans because of coal mining.</p> <p><i>More.</i> Macmillan Films, Inc., 1973. 3 min. See listing under "Elementary Films."</p> <p><i>New Mexico Passive Solar Buildings.</i> Sandia Laboratories for DOE, 1978. 14 minutes. Gives a brief description of the major passive solar heating systems and how they work.</p> <p><i>Old House. New House.</i> Springbett and Weinstein, 1982. 27 minutes. Follows the transformation of a 90-year-old house into a showplace of energy saving ideas. Demonstrates that the techniques of energy conservation need not be limited to new buildings. Illustrates solar collectors, greenhouses, weatherization, and insulation.</p> <p><i>Renewable Renaissance.</i> Romm and King, 1982. 15 minutes. Explores different types of renewable energy systems in this state. Montanans describe how their systems work and why they chose to use renewable energy.</p> <p><i>Saving Energy at Home.</i> Ramsgate Films, 1975. 13 min. Identifies major sources of home energy use, and provides tips on how the average American household can cut energy bills in half.</p>

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p><i>Solar Energy: To Capture the Power of Sun and Tide.</i> ACI Films, 1975. 21 min. Shows the use of tidal power and a sun furnace in France.</p> <p><i>Sun Power for Farms.</i> USDA Motion Picture Service, 1977. 12 minutes. Shows the potential of solar heating for agricultural production being realized through research funded by the U.S. Department of Energy.</p> <p><i>Toast.</i> Bullfrog Films, 1974. 12 min. See listing under "Elementary Films."</p> <p><i>Treasures of the Earth.</i> Churchill Films, 1974. 14½ min. Describes, largely in animation, how minerals, oil, and coal are deposited in the earth's crust. Film also deals with the scarcity of these products, and the growing difficulty in their extraction.</p> <p><i>Up the Power Curve.</i> Federal Energy Administration, 1976. 10 min. Shows the practicality of energy conservation. Covers a wide range of energy saving ideas and their potential dollar savings.</p> <p><i>Water Power.</i> Bullfrog Films, 1981. 25 minutes. History of water power, visits to small operating units and interviews with consultants and manufacturers.</p> <p><i>Western Coal: An American Dilemma.</i> Churchill Films, 1975. 24 min. Deals with the implications of coal development in Montana, Wyoming, and North Dakota. Shows scenes of Colstrip and Forsyth.</p> <p>Senior High to Adult Films:</p> <p><i>Dawn of the Solar Age: Solar Energy.</i> Time-Life Films, 1972. 29 min. Points out that the sun is capable of supplying 100,000 times the total global energy requirements and is free, but solar collectors and equipment are expensive. Can the sun be efficiently harnessed?</p> <p><i>Dawn of the Solar Age: Wind and Water Energy.</i> Time-Life Films, 1977. 25 min. Discusses wind and water power as products of solar energy. Experiments in both these areas are discussed in this British film.</p>

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
		<p><i>Energy Crunch—Part One: The Bottom of the Oil Barrel.</i> Time-Life Films, 1973. 34 min. Explores some of the reasons for shortages of oil and possibilities of finding new sources—including oil shale and coal conversion, and drilling in the North Sea and Alaska's North Slope.</p> <p><i>Energy Crunch—Part Two: The Nuclear Dilemma.</i> Time-Life Films, 1973. 40 min. Gives a brief history of nuclear power. Examines pros and cons of reactors in the U.S. and Great Britain. Describes the breeder reactor.</p> <p><i>Energy Crunch—Part Three: The Sunbeam Solution.</i> Time-Life Films, 1973. 38 min. Focuses on solar power, but also looks at wind and underground hot water. Closes with an examination of ways to conserve energy.</p> <p><i>Energy Management in Hospitals.</i> California Energy Commission, 1979. 15 minutes. Describes how energy management programs in hospitals can cut utility costs.</p> <p><i>Energy Management in Schools.</i> California Energy Commission, 1979. 15 minutes. Simple steps to cut the cost of energy consumption in schools.</p> <p><i>National Solar Heater Workshop.</i> Arizona State Energy Office, 1980. 15 minutes. Principles of using the sun to heat the home water supply and scenes of workshop participants actually building solar hot water heaters.</p> <p><i>Nuclear Power: Pro and Con, Parts 1 and 2</i> McGraw-Hill Films, 1977. 50 min. Investigates the benefits and disadvantages of nuclear power. Discusses past uses and asks if future use of nuclear energy is risky.</p> <p><i>The Other Way.</i> Time-Life Films, 1974. 26 min. Economist E.F. Schumacher looks at the energy crisis with its related problems of fuel use, land use, and manpower use, and suggests solutions.</p> <p><i>Running on Empty—The Fuel Economy Challenge.</i> U.S. Department of Energy, 1978. 27 min. Presents a special 90-mile road rally, introducing a variety of methods that average drivers in average cars can use to achieve maximum savings in gasoline and money.</p>

Also, strategic and critical mineral resources and water resources in energy production.</p> <p>To obtain publications:</p> <p>Contact agency.</p>	<p>Speakers:</p> <p>Faculty and graduate students available for meetings, symposia, and workshops.</p> <p>To obtain speakers:</p> <p>Contact agency.</p>

UNIVERSITY OF MONTANA

Environmental Library

GENERAL INFORMATION

The Environmental Library, initially begun by western Montana scientists and funded privately, is now a branch of the University of Montana. It continues its original function: to provide citizens with scientific information in understandable form.

Contact:

William Tomlinson
Environmental Library
University of Montana
Missoula, MT 59812
243-2282 or 243-2944

ENERGY-RELATED FUNCTIONS

Maintains regionally specific files on:

- energy generation: alternatives, development, policy, rates, supplies;
- transmission systems: development and effects;
- conservation; and
- legislation and statutory implementation.

Catalogues information on:

- air and water pollution,
- water resources,
- fuels and minerals, and
- radiation and hazardous materials.

Lends materials to general public through personal visit or mail checkout system.

PUBLICATIONS

Books, pamphlets, documents available for loan.

To obtain publications:

Available to public through personal visit or mail checkout system.

AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS

Slides:

35mm slides available.

Displays:

Black and white display mounted prints available.

To obtain materials:

Materials available for loan. Contact agency.

U.S. DEPARTMENT OF AGRICULTURE

Farmers Home Administration (FmHA)

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS	AUDIOVISUAL MATERIALS/SPEAKERS/ DISPLAYS
<p>Farmers Home Administration (FmHA) is a credit agency of the United States Department of Agriculture which serves rural and small town residents. FmHA administers several loan programs: for the purchase or operation of farms, to provide new employment and business opportunities, to acquire homes, and to upgrade the standard of living of residents of small towns or open country.</p> <p>Contact:</p> <p>Arthur E. Lund State Director Farmers Home Administration P.O. Box 850 Bozeman, MT 59715 587-5271, Ext. 4221</p>	<p>Provides loans for the purchase of solar-heated homes to qualified applicants.</p> <p>Provides loans for small hydro projects to farmers.</p>	<p>Pamphlets available on loan programs.</p> <p>To obtain publications: Contact agency.</p>	

U.S. DEPARTMENT OF ENERGY

Technical Information Center

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS
<p>The Technical Information Center is the educational outreach branch of the Department of Energy.</p> <p>Contact:</p> <p>Technical Information Center P.O. Box 62 Oakridge, TN 37830</p>	<p>Provides information on a variety of energy sources to teachers and consumers.</p>	<p>Pamphlets:</p> <p><i>Fossil Energy Oil.</i></p> <p><i>Nuclear Power from Fission Reactors.</i></p> <p><i>Geothermal Energy and Our Environment.</i></p> <p><i>Heating With Wood.</i></p> <p><i>1982 Gas Mileage Chart.</i> 28 pp.</p> <p><i>How to Improve the Efficiency of Your Oil-Fired Furnace.</i> 1978. 9 pp.</p> <p><i>Magnetic Fusion.</i> 1978. 9 pp.</p> <p><i>Ocean Energy.</i></p> <p><i>Solar Energy.</i> 1979. 27 pp.</p> <p><i>Wind Energy.</i></p> <p><i>Winter Survival: A Consumer's Guide to Winter Preparedness.</i> 1978. 18 pp.</p> <p>Teachers' Resource Material:</p> <p><i>Energy Ant Book.</i> Grades K-3. Explores energy conservation with energy ant in a 30-page book. 1 copy on request.</p> <p><i>Energy and Transportation.</i> Grades 3-5. Uses clarification activities, picture studies, and other developmental approaches to describe transportation in the neighborhood, community, and nation.</p> <p><i>Networks: How Energy Links People, Goods, and Services.</i> Grades 4-5. Describes dependence on energy systems. Lessons include making models of electrical systems and naming the interacting parts.</p> <p><i>The Energy Dome.</i> Grades 4-6. Social studies unit with 14 lessons. Students look at all aspects of building and operating a domed stadium, an obvious large user of energy. They learn how Americans use energy that rapidly depletes stores of fossil fuels.</p>

U.S. DEPARTMENT OF ENERGY (Continued)
Technical Information Center

GENERAL INFORMATION	ENERGY-RELATED FUNCTIONS	PUBLICATIONS
		<p><i>Science Activities in Energy.</i> Grades 4-6. Six file-folder units contain simple hands-on science experiments designed to help students learn about forms and sources of energy.</p> <p><i>The Energy Future Today.</i> Grades 7-9. 10 lessons. Study unit looks at decisions on the use of fossil fuels, conservation, allocation of scarce resources, and development of renewable energy sources. Using concepts of scarcity, tradeoffs, investment, and decision-making, students draw from science and social studies to decide various courses of action for energy supplies and use.</p> <p><i>Geothermal Energy.</i> Grades 7-9. File-folder unit with two lessons on geothermal energy. Includes classroom poster and photocopy masters for student worksheets.</p> <p><i>How a Bill Becomes a Law to Conserve Energy.</i> Grades 9-12. Focuses on the legislative process. Includes a fabricated Citizen's Band (CB) radio conversation, a simulated congressional hearing on the 55 MPH speed limit bill, which was adapted from the actual hearing record, and exercises in graph construction and interpretation.</p> <p><i>Agriculture, Energy and Society.</i> Grades 10-12. Packet based on the conviction that an energy/food production crisis is already with us. Presents basic economics of food production, profit and loss, and the law of diminishing returns. Lessons build skills in data analysis, graph interpretation, and an understanding of energy units and their conversions.</p> <p>To obtain publications: Publications available at no charge in quantities of 50 or less. Contact agency. Allow 4-6 weeks for delivery.</p> <p>Teacher Materials: <i>Award Winning Energy Activities</i> <i>The Energy Challenge</i></p>
